AI Energy Solutions bring the best in technology and processes for their Nut Shell Filter Skid Packages

EPC of Fahud Steam Injection by AI Projects

Arabian Industries LLC (AI) group of companies is one of the leading EPC Contracting, Manufacturing and Maintenance Company in Oman providing wide range of solutions across Oil & Gas, Refineries, Petrochemicals and Power Industries. In an ever changing world, we as a company believe in constant evolution and continual improvement. Opening our door for business as a fabrication company back in 1991 at Rusayl, Sultanate of Oman and with over 2500 employees in our group, we have grown and diversified our portfolio to Engineering, Procurement and Construction for the energy sectors and providing total solutions in Upstream, Downstream & Midstream operations of Oil & Gas.

We have made steady progression not only locally but also branched out to reach international markets with fabrication facilities in the Republic of Iraq and Saudi Arabia and Operation offices at United Arab Emirates and United Kingdom. To satisfy our Customer requirements swiftly and effectively, we have organized our business structure with corporate holding entity and four Group companies specialized in EPC Projects, Manufacturing, and Process Engineering & Maintenance solutions. Gearing up for the future, we have the skills and infrastructure necessary to deliver for the established and frontier markets and are readily equipped with highly skilled and specialized workforce and state of art infrastructure in each of the business units we operate under.

As we embark on our journey of significant growth across the Region, we commit to deliver for all our Clients, World Class solutions against their specific project metrics with safety as our highest priority.

Arabian Industries Projects (AIP)

AI Projects (AIP) is a part of Arabian Industries Group of companies equipped to deliver most challenging projects across the EPC Project lifecycle sectors in MENA region. Our multi-disciplinary expertise and background ensures our clients have access to a "One-stop solution", both onshore and offshore, for delivery assurance in Project management, Engineering, Procurement, Logistics & Warehousing, Installation and Facilities commissioning.

Capabilities

Engineering Procurement
Construction of:

- 1 Oil & Gas Projects (including On-Plot & Off-Plot piping)
- 2 Gas Treatment Plants
- 3 Steam and Water Injection facilities
- 4 Power Projects
- 5 High voltage OHL Power Transmission & Distribution facilities

EPC OF SOHAR PRESSURE REDUCTION TERMINAL

CONSTRUCTION OF EOR STEAM INJECTION PROJECT

CONSTRUCTION OF TANK FARMS

OFF PLOT CONSTRUCTION OF
AMAL STEAM SURFACE FACILITIES

Arabian Industries Manufacturing (AIM)

AI Manufacturing (AIM) is a part of Arabian Industries Group of companies and a complete solution provider focused on Engineering and Manufacturing of Process equipment, Packages & Solutions for end-users in Oil & Gas, Refinery, Petrochemicals, and Power sector industries. Our facilities strategically located in Oman, Iraq, Saudi Arabia and UAE are equipped with state of the art machineries to meet world class standards. We are certified with ASME U, U2, S, R and NB stamps. Quality, Health, Safety, Security & Environment is the cornerstones around which AIM's business is built and nurtured.

Capabilities

Design, Manufacturing and Supply of:

- 1 Modular Process Skid packages
- 2 Pressure Vessels
- 3 Water Treatment Packages
- 4 Columns & Reactors
- 5 Heat Transfer Equipment
- 6 Pre-fabricated piping spools
- 7 Equipment & Technological structures

HYDROCYCLONE SKID PACKAGE

INCONEL 625 CLADDED TEST SEPARATORS

SOUR WATER STRIPPER COLUMN

AIR COOLED HEAT EXCHANGERS

Arabian Industries Energy Solutions (AIES)

AI Energy Solutions (AIES) is a group company of Arabian Industries specialized in process engineering packages for the oil & gas industry. Our activities include Produced Water treatment using cyclone based separation devices, Sand removal from Process streams and, complimented by a wide range of established and emerging technologies. From our Process Engineering centre ideally located in the UK, and supported by AI Group companies' comprehensive fabrication facilities and approved sub-contractors, AIES can provide complete integrated process packages and deliver world wide solutions to the oil and gas industry.

Capabilities

AIES provides specialist process solutions and our product portfolio covers four main upstream areas;

Oil Separation

Gas Treatment

Produced Water Treatment

Sand Management

Technical Support

CHOKER MANIFOLD MAINTENANCE

VALVE TESTING & REFURBISHMENT

PRECISION MACHINED PARTS

MAINTENANCE OF BOP

Arabian Industries Technical Support (AITS)

AI Technical Support (AITS) a group company of Arabian Industries is specialised in providing total maintenance solutions under one roof catering to Clients in Oil & Gas, Petrochemicals, Chemicals and Refineries. In a global economy where budgets are carefully crafted and expenses closely monitored, our Clients depend on us to provide total maintenance services project of any scale that align with their business goals and our professional commitment to excellence and safety.

Our facilities strategically located in Rusayl & Sohar, are equipped with state of the art machineries to meet world class standards. We are certified with API 6A, 6D and 16A standards.

Capabilities

AITS provide complete range of Maintenance solutions that includes;

- 1 Maintenance & Overhauling of oil-field equipment
- 2 Beam Pump maintenance
- 3 Well-head equipment maintenance
- 4 Repair & Refurbishment of Valves
- 5 Plant Turnaround, Shutdown & Maintenance activities
